Let's create an internet where we are....

1 Free to be ourselves

Be proud of all the things that you enjoy, and keep on trying different things too. If there are new activities that you want to do online, ask an adult first to help you find them - to check they're ok for you.

2 Free to be kind

Remember, the rules that you follow every day in real life also apply when you're on the internet. It's important to treat other people the way that you would like to be treated and always think about their feelings.

3 Free to play

It's really important that your parents and carers know what you enjoy doing online, so that they can help you when you need it. Using the internet together as a family is really fun, and you'll be the best teacher when it comes to showing everyone your favourite games!

4 Free to be safe

Some parts of your identity must stay private. This is your 'personal information' - which includes your name, date of birth, home address, school address, email address and passwords.

5 Free to talk

If anyone, or anything, online makes you feel worried, upset or uncomfortable, tell a trusted adult straight away. The sooner someone knows how you feel, the sooner you can be helped.

Parent Partnership Meetings

Letters regarding parent partnership meetings in March have gone home today. Please hand in your slip before the end of term to ensure a suitable timeslot.
