Let's Celebrate!

These photographs, of the children's outdoor play and learning, were taken by some of our Year 1 children.

We have been working hard to create play time experiences which are fun, engaging and promote children's physical and emotional wellbeing. Much of the emphasis has been on the KS1 (year 1 and 2 playground) and we still need your support to resource this environment as well as improving our Reception children's play times.

Please think of us if you are having a clear out of any sort. You may be surprised by what we could use in school. I have compiled a list of useful items. So, do not throw it away, send it our way!

We would be grateful for: Large empty cardboard boxes; small world toys, especially people, dinosaurs and animal figures; natural resources such as pine cones; planks of wood; soft fabric wheeled suitcases (any quality); scrubbing brushes; large paint brushes; kitchen utensils including saucepans and spoons; toy musical instruments; old unused diaries and notepads; large plastic boxes; plastic crates; toy food and toy kitchen equipment; plastic drainpipes and guttering; sieves; buckets (large and small); small garden trowels and forks; chalk; large pegs; camouflage netting and Duplo.
