no. 19

Thank you to our kind family who thought of us when rehoming some dinosaurs! As you can see, they are happily playing in the mud digging area.

We are always grateful for small world toys for our sand and mud areas as well as kitchen equipment, bags and buggies for our home corner.

Please leave them in the Opal container at the front of the school or give them to Mrs Scanlon in Hendra class.

The friendship/home corner area has proved to be very popular.

The children enjoy writing notes and drawing pictures for each other as well as using role play to promote their communication, imagination and social skills.

Music Wall

In Reception area, a music wall has been added to the area above the stage.

The children are ready, respectful and safe.

The children follow the Play Charter and everyone helps tidy up and set up the play equipment.

They help each other and move the equipment safely so they are ready to play.

Free play is fundamental to children's physical, social, mental and emotional development and intrinsic to their health and happiness in the present moment.
